EXPERIENCE

September 2023 – November 2023

Junior Web Developer: React, TypeScript, NestJS, Flutter, SQL | Viasat Belgium – Bruxelles
Working as a full-stack developer, my role revolved around analyzing, developing, and delivering modern solutions for our clients. This involved handling both frontend and backend development for web and mobile applications

February 2023 – May 2023

Web Developer (Internship): React, TypeScript, NestJS, SQL | Viasat Belgium – Bruxelles
During my internship, I successfully developed a translation website using React and NestJS. This project allowed me to deepen my understanding of web development frameworks while honing my skills in creating responsive and efficient web solutions. This experience not only enhanced my technical abilities but also provided valuable insights into integrating diverse technologies for comprehensive web solutions.

June 2022 – August 2022

Computer Science Teacher: Python and Java | Superprof.be
I've had the rewarding experience of assisting students in preparing for their programming exams in both Java and Python. Guiding them through the intricacies of these languages, I provided comprehensive support to ensure their understanding and readiness for their examinations. I aimed to equip them with the knowledge and confidence needed to excel in their programming assessments.

EDUCATION

September 2020 – June 2023

Bachelor's degree in Business informatics | Paul Lambin (IPL) – Bruxelles

September 2012 – June 2019

High School | Emile Bockstael – Bruxelles
